

Student Protection Officers

The safety, welfare and wellbeing of our students is of paramount importance. Our College has delegated a number of staff as Student Protection Officers. If you are concerned about your safety or wellbeing or that of a friend or fellow student, you can speak with any trusted adult member of staff or to one of our Student Protection Officers.

Remember the most important thing is that you feel safe and free from harm. You are encouraged to tell a trusted adult if you are being harmed or are afraid that you will be harmed.
